

Mariano Alvarez

FRONTEND DEVELOPER

Profile

As a Frontend developer with a focus on JavaScript, I have experience developing and maintaining responsive and user-friendly websites using HTML, CSS, and JavaScript. I have a strong understanding of the fundamentals of JavaScript and am proficient in using popular front-end framework such as React. I am dedicated to continuously learning and staying up-to-date with the latest technologies and best practices in web development. I have experience working collaboratively with designers and backend developers to create visually appealing and functional web applications. With my strong problem-solving skills and ability to analyze and resolve complex issues, I am confident in my ability to contribute to the success of any team.

Employment History

Full Stack Developer, Freelance
